

SOUTH CAROLINA JUDICIAL BRANCH

CMS 7.2.002.SP8.HF3 Release Notes

Version: 7.2.002.SP8.HF3

Release Date: October 21, 2025

Enhancements:

- When adding a case to Courtroom Processing, the box for the Juvenile Flag is only checked when a case party record for the defendant has the juvenile flag set to 'Y' at the case party level.
- Within the Roster View of the Case Information Screen, an Eraser icon is now at the end of each record in the grid which provides the capability for the user to remove the associated record from the roster.
- The Judgement date can now be earlier than the Filed date.
- The CDR Code Selector [CTiacF] now allows the selection of Retired CDR codes.
- The South Carolina Muni Revenue Report (Report Manager / State Reporting) has been updated to include a line for "Defense of Indigents Civil Application Fee-\$40/Application".
- If an eDisposition error exists when the Safe icon (Seal/Expunge this case) is clicked from the case information screen, an error message will display and prohibit the user from sealing the case.
- When the 'New Charge code' is double clicked from Report Manager / State Reporting/Amend Charge Secured panel, the 'Select Charge' prompt that displays has been updated to display the Select Charge screen [CTiacf], which includes Search options.
- An error message now displays if the user attempts to Seal a case that has an eDisposition error.

Bugs:

- Submenu items are no longer editable in SMS Tree View.
- In the Case History Report, when a Sentence is added to a case, the Sentence Description no longer displays twice on the Case History report.
